

Permit/Prevent Screen

Select a station to permit its use.

Green = Permit Use

Red = Prevent Use

Station 1

(button)

Station 2

(button)

Station 3

(button)

Station 4

(button)

Station 5

(button)

Station N

(button)

Go Back

(button)

Initially, all stations should have a red outline meaning their use is prevented. When you click on them, the outline should change to green indicating they have been permitted. Your selection should be saved if you go back to this use case from the main screen.
