Startup/Shutdown Screen

Select a station to start it up.

Green = Startup   *Red = Shutdown*

Station 1 (button)	**Station 2** (button)	**Station 3** (button)
Station 4 (button)	**Station 5** (button)	**Station N** (button)

Go Back (button)

Initially, all stations should have a red outline meaning they are shut down. When you click on them, the outline should change to green indicating they are started up. Your selection should be saved if you go back to this use case from the main screen.
