Example Station Layout

|		
Station 1 (button)	**Station 5** (button)	**Station 9** (button)
Station 2 (button)	**Station 6** (button)	**Station 10** (button)
Station 3 (button)	**Station 7** (button)	**Station 11** (button)
Go Back (button) **Station 4** (button)	**Station 8** (button)	**Station N** (button)

Open Issue: This is just an idea of how we can display the different stations so that the Attendant can perform the start-up, shut-down, permit station use and prevent station use case diagrams.
